We Deliver the Beauty of Healthy Skin™

**Evidence-Based Skin Care
For Your Practice**

Discover the Benefits
of Becoming an Epionce
Professional Partner

EPIONCE SKIN CARE
simple. effective. proven.

We Deliver the Beauty *of* Healthy Skin

Epionce is a physician-strength skin care line created by practicing clinical dermatologist, Carl R. Thornfeldt, MD, FAAD.

Thank you for taking the time to learn more about Epionce. A trendsetter in the skin care industry, Epionce offers cosmeceutical products that are safe to use, proven effective and enhance the health of the skin. Epionce has made a significant difference in the lives of my patients. I personally invite you to discover the Epionce difference, and what Epionce can do for your patients, and your practice.

Carl R. Thornfeldt, MD, FAAD

“I created Epionce to help me be a better doctor.”

Carl R. Thornfeldt, MD, FAAD

About our Founder

- Practicing dermatologist for over 30 years and CEO/Founder of Epionce
- Received his medical degree from Oregon Health & Science University (OHSU) in Portland, Oregon
- Nearly two decades of experience researching the skin to find the root cause of skin aging and disease
- Holds 22 U.S. patents on ingredient technology and transdermal delivery
- Published 40 scientific articles on cosmeceuticals, drug delivery, natural products and dermatology
- Over 50 skin care presentations worldwide, including the American Academy of Dermatology 2015 and 2017 Annual Meetings
- Received the 2019 Lifetime Achievement Award presented by THE Aesthetic Show

Benefits for Your Patients and Practice

Clinically proven, botanically-based, multitasking regimens calm chronic inflammation, repair and strengthen the barrier, and address the comprehensive root cause of skin aging and disease.

Recommending skin care that you trust is important to us. In more than 15 independent head-to-head clinical trials, Epionce has been proven safe and effective in reducing the visible appearance of skin aging and problem skin – without irritation. Epionce founder Dr. Carl Thornfeldt uses Epionce every day in his clinical practice, often in combination with prescription therapies, to improve the quality of life for his patients, and health of their skin.

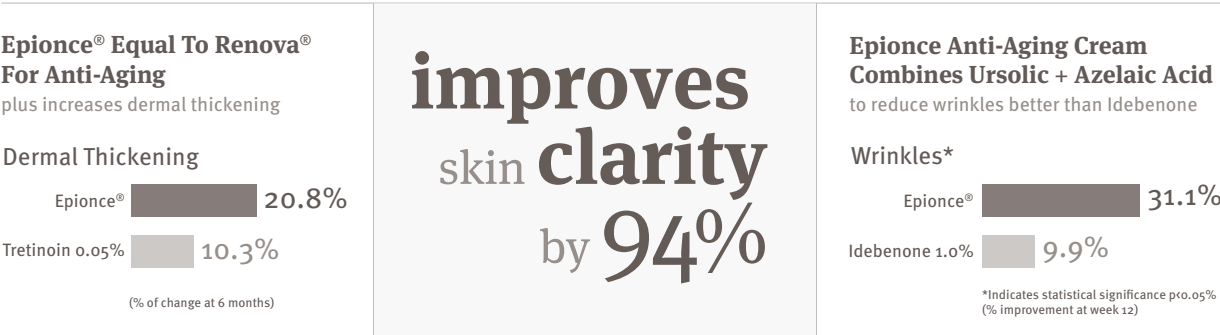

Why Carry Epionce?

- Clinically proven safe and effective in more than 15 head-to-head independent trials
- Anti-aging results equal to 0.05% tretinoin + lactic acid moisturizer
- Powerful botanical ingredient technology specifically selected for therapeutic benefits
- Paraben, fragrance, sulfate, gluten and cruelty-free
- Simple, easy-to-use multitasking patient regimens
- Comprehensive in-clinic protocols for procedures
- Personalized product training for your office
- Sold only to medically-directed offices
- Full line of retail products and patient sampling program

Epionce® Superior to Leading Anti-Aging Therapies

Early Studies: Epionce vs. Tretinoin and Epionce vs. Idebenone

Up Close: Epionce® vs. Renova® for Anti-Aging

Epionce is equal to prescription Renova but with no irritation

BASELINE

AFTER

PERCENTAGE of CHANGE

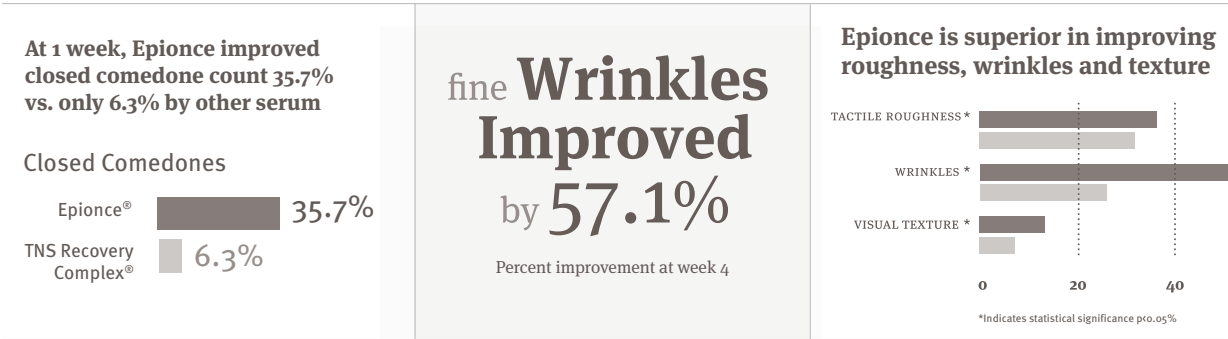

● Epionce at 6 Months ● Tretinoin 0.05% at 6 Months

At no time for any parameter was 0.05% tretinoin statistically significantly superior to Epionce.

Anti-aging improvement at 6 months. Photos at baseline and 6 months. Individual results may vary. All Epionce clinical studies are performed by independent, third-party research organizations using the finished, market-ready product. Data on file. Episciences, Inc.

Epionce® Multivitamin Serum for Anti-Aging Results

Epionce Intense Defense Serum better than leading physician-strength serums

BASELINE

AFTER

PERCENTAGE of CHANGE

- Epionce at week 4
- Leading physician-strength serum at week 4

Epionce Intense Defense Serum is safer with statistically significantly better tolerability in skin tightness, itching/tingling and irritation.

Anti-aging improvement at weeks 1, 4 and 8. Photos at baseline and week 8. Individual results may vary. All Epionce clinical studies are performed by independent, third-party research organizations using the finished, market-ready product. Data on file. Episciences, Inc.

Renewal Facial Cream

Reduces skin **Roughness** by **56%**

Epionce® Purifying Spot Gel Rapidly Reduces Acne

Purifying Spot Gel superior to prescription clindamycin/benzoyl peroxide

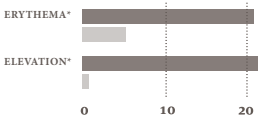

Mean Change in Diameter at Day 6

lesion elevation
Improved
by **84.8%**

C/BP: 59% (mean change at day 6)

Epionce Superior in Improving Erythema and Elevation at Day 1

● Epionce ● Clindamycin/BP

*Indicates statistical significance p<0.05%

BASELINE

AFTER

Purifying Spot Gel was statistically significantly superior to clindamycin/benzoyl peroxide in erythema, elevation and diameter.

Acne improvement at days 1 and 6. Photos at baseline and day 6. Individual results may vary. All Epionce clinical studies are performed by independent, third-party research organizations using the finished, market-ready product. Data on file. Episciences, Inc.

Epionce® Lytic Tx superior to 10% Benzoyl Peroxide

Epionce reduces problem skin conditions without irritation

Results Without Irritation

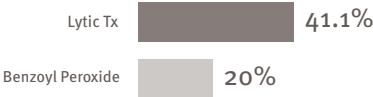

Lytic Tx decreased itching by 6.7% at day 6, compared to 13.3% increase with use of benzoyl peroxide

Lytic Tx was preferred by 72.7% of patients over benzoyl peroxide at the completion of the study (week 12)

lesions
Decreased
by **53.3%**

Decrease in forehead papules at week 12

Reduction of Lesional Erythema

● Epionce at day 6 ● Benzoyl Peroxide (BP) at day 6

BASELINE

AFTER

Lytic Tx was statistically significantly superior to 10% benzoyl peroxide in lesional erythema, size and elevation.

Acne improvement at week 12. Photos at baseline and week 16. Individual results may vary. All Epionce clinical studies are performed by independent, third-party research organizations using the finished, market-ready product. Data on file. Episciences, Inc.

Epionce® Improves Dark Spots Without Hydroquinone

*Epionce MelanoLyte Skin Brightening System for hyperpigmentation
vs. 4% Hydroquinone + Tretinoin 0.05% regimen*

BASELINE

AFTER

Epionce MelanoLyte Skin Brightening System has proven safety and efficacy in Fitzpatrick Skin Types I-VI, without irritation or regression period.

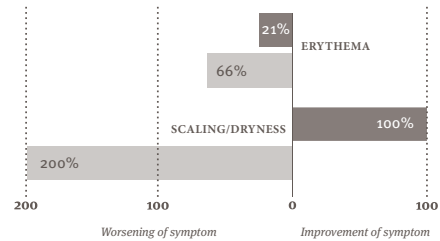

Hyperpigmentation improvement at week 12. Photos at baseline and week 16. Individual results may vary. All Epionce clinical studies are performed by independent, third-party research organizations using the finished, market-ready product. Data on file. Episciences, Inc.

● Epionce at week 12
● 4% hydroquinone & tretinoin 0.05% at week 12

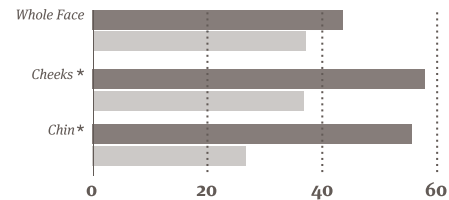

*Indicates statistical significance p<0.05

Irritation Reactions at Week 12

Erythema and Scaling/Dryness

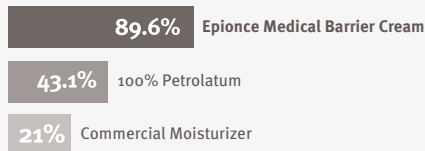

Percentage of Change: Melasma

Epionce® Improves Barrier Function Post-Procedure

Epionce Medical Barrier Cream vs. leading post-laser treatments

Reduction of Transepidermal Water Loss (TEWL) within 45 minutes

Effective Results

Re-Epithelialization & Visibly Reduced Erythema

Medical Barrier Cream had better results faster than leading glycerin ointments in 75% of patients.

100%
patients preferred
Epionce
for feel and ease of use over
leading post-care ointments

Cleanse + Prepare

Step 1

Healthy skin starts with clean skin. Epionce cleansers and toners gently remove dirt, oil and makeup without irritation or harsh ingredients.

All Skin Types

For Eczema/Dry Skin
And All Skin Types

Improves the visible appearance of fine lines and wrinkles around the unique lip area

Hydrates and encourages cell turnover for smoother, softer, more youthful-looking lips; use alone or as a primer under lipstick to improve color longevity

Quick-absorbing, non-greasy formula hydrates and repairs to reveal more youthful-looking hands

Helps improve the visible appearance of the signs of skin aging; soothes rough, dry skin

Non-greasy lotion formulated to help improve the visible signs of aging on the arms, legs and body; hydrates, strengthens and repairs the skin

Soothes dry, flaky skin and helps improve visible skin tone; the perfect all-over daily lotion

Luxuriously rich all-over body cream provides instant, long-lasting hydration to soften and smooth the skin; strengthens and repairs the skin barrier

Especially beneficial for rough skin on the elbows, hands and feet

Provides a surge of hydration for highly sensitized, delicate, dry skin

Formulated specifically for skin types that are resistant to sensitizers and preservatives found in standard moisturizers

Clinically proven skin protectant to help relieve dry, itchy skin due to eczema; soothes irritated and highly sensitized skin; OTC monograph for eczema

Formulated with cholesterol and ceramides to protect the skin barrier; ideal for both the face and body

All Skin Types

BENEFITS

Cosmetically-elegant sunscreen formula for daily use helps protect the skin from damaging effects from the sun; use alone or under makeup

Broad-spectrum SPF 50 to protect from UVA/UVB rays; water-resistant (80 minutes); re-apply sunscreen often and as directed

Sheer tinted one-shade sunscreen provides flawless coverage to protect all skin types and tones; blends smoothly to enhance skin's natural glow

Broad-spectrum SPF 50 blends flawlessly for use alone or under makeup; water-resistant (80 minutes); re-apply sunscreen often and as directed

ACTIVE
INGREDIENTS

Homosalate 10.0%
Octisalate 5.0%
Zinc Oxide 10.0%

Titanium Dioxide 4.8%
Zinc Oxide 9.3%

INACTIVE
INGREDIENTS

Alkyl (C12-15) Benzoate, Ammonium Acryloyldimethyltaurate/VP Copolymer, Butylene Glycol, Caprylyl Glycol, Caprylyl Trisiloxane, Cetostearyl Alcohol, Date, Dimethicone, Ethylhexylglycerin, Glycerin, Hexylene Glycol, Hydrogenated Polybutene (3300 MW), Hydroxyethyl Acrylate/Sodium Acryloyldimethyl Taurate Copolymer (45000 MPA.S AT 1%), Linseed Oil, Malic Acid, Meadowfoam Seed Oil, Phenoxethanol, Polyhydroxystearic Acid (2300 MW), Polysorbate 80, Safflower Oil, Steareth-2, Steareth-21, Triethoxycaprylylsilane, Trimethylsiloxyisilicate (M/Q 0.66), Water.

Cyclomethicone 5, Water, Dimethicone Crosspolymer (450000 MPA.S AT 12% In Cyclopentasiloxane), Butylene Glycol, Cetyl PEG/PPG-10/1 Dimethicone (HLB 2), Polymethylsilsesquioxane (4.5 Microns), Caprylyl Trisiloxane, PEG-10 Dimethicone (600 CST), Argan Oil, Glycerin, Distear-dimonium Hectorite, Isododecane, ALPHA-Tocopherol Acetate, Aluminum Oxide, Apple, Caprylyl Glycol, Ethylhex-ylglycerin, Ferric Oxide Red, Ferric Oxide Yellow, Ferrosoferric Oxide, Helianthus Annuus Flowering Top, Hexylene Glycol, Lauryl Polyglyceryl-3 Polydimethylsi-loxyethyl Dimethicone, Levomenol, Methicone (20 CST), PEG/PPG-18/18 Dimethicone, Phenoxethanol, Propylene Carbonate, Rice Bran, Rosemary, Silicon Dioxide, Sodium Chloride, Tocopherol, Triethoxycaprylylsilane.

Basic Epionce Regimen Guide

A quick regimen guide for everyday skin care, conditions and concerns.

	1 Cleanse + Prepare	2 Correct + Boost	3 Renew + Fortify	4 Protect + Prevent
Dry/Sensitive Skin	Milky Lotion Cleanser	Lite Lytic Tx	Renewal Facial Cream	Epionce sunscreen
Normal/Combo Skin	Gentle Foaming Cleanser	Lytic Tx	Renewal Facial Lotion	Epionce sunscreen
Combo/Oily Skin	Lytic Gel Cleanser	Lytic Sport Tx/Lytic Plus Tx	Renewal Lite Facial Lotion	Epionce sunscreen
Anti-Aging/Texture	Gentle Foaming Cleanser	Lytic Tx	Intense Defense Serum + Renewal	Epionce sunscreen
Dark Spots	Gentle Foaming Cleanser	MelanoLyte products	Intensive Nourishing Cream	Epionce sunscreen
Blemish Prone Skin	Lytic Gel Cleanser/Purifying Wash	Lytic Sport Tx/Purifying Spot Gel	Renewal Lite Facial Lotion	Epionce sunscreen
Irritated Skin	Milky Lotion Cleanser	Lite Lytic Tx	Renewal for skin type	Epionce sunscreen
Dry/Flaky Skin	Milky Lotion Cleanser	Lytic as directed	Medical Barrier Cream*	Epionce sunscreen

*Epionce Renewal Calming Cream and Enriched Body Cream are also beneficial.

Why Epionce for Your Practice?

- Effective delivery systems achieve results without skin barrier destruction or causing unnecessary inflammation in the skin
- Utilizes powerful ingredient technologies to promote healthy skin
- Botanical-based formulas that produce optimal results without irritation
- Proven safe and effective in clinical studies performed on final formulations
- Customized Epionce regimens to meet specific aesthetic or skin care goals
- Pre-procedure conditioning and post-procedure healing for optimal results
